PUBLIC NOTICE OF APPEAL

TO: All Interested Parties
FROM: S.C. Department of Health and Environmental Control
SUBJ: Jeffery Knowles, OCRM-06-242-M
DATE: November 7, 2008

The Department has issued the above referenced permit for a private dock on and adjacent to a tributary of Captain Sams Creek at 3013 Rascal Run, Seabrook Island, Charleston County.

Jeffrey D. Knowles, has requested a contested case hearing before the Administrative Law Court.

Intervenor: A motion for leave to intervene, with the \$25 filing fee, shall be filed with the South Carolina Administrative Law Court, Edgar A. Brown Building, 1205 Pendleton Street, Suite 224, Columbia, South Carolina 29201, (telephone 734-0550) and served on all parties and shall state the grounds for the proposed intervention, the position and interest of the proposed intervenor, and the possible impact of the intervention on the proceedings. A proposed answer or position in intervention shall be attached to the motion.

Any person may intervene in any pending contested case hearing upon a showing that:

- (1) the movant will be aggrieved or adversely affected by the final order;
- (2) the interests of the movant are not being adequately represented by existing parties, or that it is otherwise entitled to intervene;
- (3) that intervention will not unduly prolong the proceedings or otherwise prejudice the rights of existing parties.

The motion for leave to intervene shall be filed as early in the proceedings as possible to avoid adverse impact on the existing parties or the disposition of the proceedings. Unless otherwise ordered by the administrative law judge, the motion to intervene shall be filed at least twenty (20) days before the hearing. Any later motion shall contain a statement of good cause for the failure to intervene earlier.

A person granted leave to intervene is a party to the proceeding. The intervenor shall be bound by any agreement, arrangement or other matter previously determined in the case. The order granting intervention may restrict the issues to be raised or otherwise condition the intervenor's participation in the proceeding. If appropriate, the administrative law judge may order consolidation of petitions and briefs and limit the number of representatives allowed to participate in the proceedings.

SPECIAL NOTES

***DMPs** Dock Master Plans - OCRM is reviewing the listed DMPs for planning purposes only. Permitting decisions will occur when future dock applications are processed by OCRM for individual property owners. This document is used as a planning tool it is not subject to the appeal. OCRM welcomes comments from the public on these planning documents.

****WMPs** Wetland Master Plans – OCRM is reviewing the listed WMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM, which include impacts to freshwater wetlands. This document is used as a planning tool; it is not subject to appeal. OCRM welcomes comments from the public on these planning documents.

*****SWMPs** Stormwater Master Plans – OCRM is reviewing the listed SWMPs for planning purposes only. Permitting decisions will occur when future applications are processed by OCRM. OCRM welcomes comments from the public on these planning documents.

******PERs** Preliminary Engineering Reports – OCRM is reviewing the lists PERs for the purpose of commenting to other sections of DHEC concerning this document. OCRM will not be issuing a coastal zone consistency certification at this time but providing comments. If this proposal moves forward to the permitting process, OCRM would at that time do a full coastal zone consistency review.

SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE

November 7, 2008

Permit Number: OCRM-08-233-M
Permit ID: 64832

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Tom Fitts
C/O Mr. Robert L. Frank
1923 Maybank Hwy
Charleston, SC 29455

LOCATION: On and adjacent to Fishing Creek at 585 Fishing Creek Road, Edisto Island, Charleston County, South Carolina. TMS#: 023-00-00-119.

WORK: The work as proposed and shown on the attached plans consists of making modifications and additions to an existing dock. Specifically, the applicant proposes to install a roof over the existing 8' by 15' 8" fixed pierhead and to construct a 4' by 5' platform floodside of that structure to support the relocated 3' by 20' access ramp and 10' by 40' floating dock. The purpose of the activity is or the applicant's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before November 22, 2008. For further information please contact the project manager for this activity, Fred Mallett at 843-953-0236.

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Orlando Ojeda
C/O Kennerty Surveying, Inc.
P. O. Box 26
Ravenel, SC 29470

LOCATION: On and adjacent to Fishing Creek at 586 Palmetto Pointe Lane, Edisto Island, Colleton County, South Carolina. TMS#: 360-00-00-175.

WORK: The work as proposed and shown on the attached plans consist of making modifications and additions to an existing dock. Specifically, a portion of the existing walkway and fixed pierhead will be removed and replaced with a 257' angled walkway to create a 4' by 490' structure, with handrails, leading to an 8' by 8' covered fixed pierhead. On the ebbstream side of the pierhead, an access ramp will lead to a 6' by 10' floating dock. The applicant also proposes to install a 12' by 12', four-pile boatlift on the floodstream side of the proposed pierhead. The work as described is for the applicant's private recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

Permit Number: OCRM-08-247-B
Permit ID: 64883

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Pamela Yvonne Baker
2705 Palmetto Hall Boulevard
Mount Pleasant, SC 29466

LOCATION: On and adjacent to a tributary of Clouter Creek between 1097 Pinefield Road and Highway I-526, Berkeley County, South Carolina. TMS# 271-00-01-066.

WORK: The work as proposed and shown on the attached drawings consists of constructing a private recreational dock. Specifically, the applicant proposes to build a 4' x 841' walkway, with handrails, leading to an 6' x 10' fixed pierhead. A 10' x 12' boatlift and a 3' x 20' gangway will be attached to the pierhead and the gangway will lead to 6' x 10' floating dock. The work as described is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before November 22, 2008. For further information please contact the project manager for this activity, Steve Brooks at 843-953-0235.

PERMIT APPLICATION PUBLIC NOTICE**

November 7, 2008

Permit Number: OCRM-08-934-G
Permit ID: 65044

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Kathleen Coleman
C/o Tidewater Environmental Services, Inc.
PO Box 865
Johns Island, SC 29457-0865

LOCATION: On and adjacent to West Branch Boyd Creek at 3 Riverview Drive, Ridgeland, Jasper County, South Carolina.
TMS#: 094-07-00-002.

WORK: The work, as proposed and shown on the attached plans, consists of making additions to an existing private dock. Specifically, the applicant proposes to add a 12'x12' four pile boatlift with a 3'x5.5' catwalk to the flood-side of an existing 10'x10' covered fixed pierhead. The purpose of the additions is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before November 22, 2008. For further information please contact the project manager for this activity, Georgie Madlinger at 843-846-9400.

**SCDHEC OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
PERMIT APPLICATION PUBLIC NOTICE**

November 7, 2008

Permit Number: OCRM-08-935-G
Permit ID: 65091

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Raymond J Benedict
C/o Sea Island Dock Builders, LLC
77 Ashton Drive
St. Helena Island, SC 29920

LOCATION: On and adjacent to a tributary of Harbor River at 12 Little Horse Island Road, St. Helena Island, Beaufort County, South Carolina.
TMS#: R300-018-00A-0022-0000.

WORK: The work, as proposed and shown on the attached plans, consists of constructing a private dock. Specifically, the structure will have a 4'x352' walkway with handrails leading to a 12'x16' fixed pierhead. The purpose of the dock is for the applicant's private, recreational use.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before November 22, 2008. For further information please contact the project manager for this activity, Geordie Madlinger at 843-846-9400.

Notification of Public Notice

Enclosed are public notices issued by the SCDHEC Office of Ocean and Coastal Resource Management and the U.S. Army Corps of Engineers. All interested parties are allowed 30 days for major developments and 15 days for minor developments after receipt of the public notices to file written comments to the OCRM pertaining to the applications. Only those comments received within this period must be reviewed by the OCRM in processing the permit application. Any person wishing notification of the initial OCRM decision on any specific public notice must make written request within the designated review period for that public notice.

November 7, 2008

Pursuant to Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403), and the South Carolina Coastal Zone Management Act (48-39-10 et seq.) an application has been submitted to the Department of the Army and the South Carolina Department of Health and Environmental Control by

MOUNT PLEASANT, SOUTH CAROLINA 29464

To revise an existing permit to construct a dock in

OYSTER HOUSE CREEK

Off of Long Island Drive, in the town of Meggett, Charleston County, South Carolina (Lat 32.70139°, Long - 80.22861°)

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, DECEMBER 1, 2008

from those interested in the activity and whose interests may be affected by the proposed work.

The original permit was issued on August 28, 2008, and the applicant has not begun construction of the permitted work. The proposed work as modified consists of a 4' x 50' walkway leading to a 12' x 24' covered pierhead. From the pierhead will be a 4' x 25' gangway leading to a 10' x 40' floating dock. There will also be a 3' x 25' fixed pier access walkway leading to a 12.5' x 15' four-pile boat lift. There will be a slight change in the location of the structure in order to avoid tree limbs from a very large oak tree on the bank. Due to the difference in the location of the Critical Line, the fixed walkway will increase in length from forty feet to fifty feet, but will extend no farther out into the channel than the original dock permitted. The other changes to the project include increasing the size of the covered pierhead from 12' x 12' to 12' x 24', as well as adding the 3' x 25' fixed pier access walkway and increasing the size of the boat lift from 11' x 14' to 12.5' x 15'. The purpose of this structure is for the private recreational use of the property owner.

NOTE: Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

The work shown on this application must also be certified as consistent with applicable provisions of the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certification is received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review. Persons wishing to comment or object to State certification must submit all comments in writing to the South Carolina Department of Health and Environmental Control at the above address within thirty (30) days of the date of this notice.

This initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact 0.01 acres of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

The District Engineer has consulted the most recently available information and has determined that the project will have no effect on any Federally endangered, threatened, or proposed species and will not result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request to the U.S. Fish and Wildlife Service and the National Marine Fisheries Service for any additional information they may have on whether any listed or proposed endangered or threatened species or designated or proposed critical habitat may be present in the area which would be affected by the activity, pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended).

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Stephanie McCary at 843-329-8044.
